

Surgical Associates Bariatric New Patient Information

To make an appointment with one of our bariatric surgeons you will need the following items:

- A referral letter from your primary care physician that supports your desire to pursue bariatric surgery.
- Three years of medical records that include a 6-month diet history.
- And attendance at a New Patient Education Meeting.

The meetings for Surgical Associates are generally held the second Monday of every month at 6pm in the 11th floor lobby of our office located at Cityplex Towers 2448 E. 81st Street, Suite 1100, Tulsa, Oklahoma. We are located on the 11th floor of the 60th Tower. The date is subject to change. There is a \$25.00 program fee that must be paid in advance of your registration. Please call our office at 918-505-3400 for the next available seminar date.

You may also want to contact your insurance company to determine if bariatric surgery is covered by your plan. Currently, due to Medicaid facility requirements, we are not accepting Medicaid patients into our bariatric program.

For more information please visit our website www.satulsa.com .

To make your reservation for the next available New Patient Education Meeting call 918-505-3400.

Welcome to the Surgical Associates' bariatric program.
